Wooton Pitches Win After Tractors Lose to Nash

Copyright 1920, by Geo. McManus.

PERRING CREW IS WHITEWASHED IN SATURDAY BATTLE

Five games in one week was too much for "Lefty" Smithson of the Janesville Tractors when on Saturday the Nash motors banded the Perring crew at Kenosha. It was a hard defeat, but the Bower City boys came back on Sunday and slipped over a victory upon the Motor-makers, 5 to 3, with Jack Wooton performing on the mound.

Nash played a wonder game on Saturday and made every one of the six hits that Smithson gave out for run getters. It was heart-breaking for "Lefty" to watch his team being outplayed by a shutout. The Kenosha outfit started breaking out from the very start, breaking out with their first brace, of runs in the fourth frame and following with two in the fifth and two in the seventh. Four Tractor errors tell part of the yarn.

Tractors Lack Force.
"Daddy" Perring, Brackett and Schwab got Janesville's five hits Saturday. Perring hit into three of them. Dick Crutcher, holding his enemies within the hollow of his hands.

Janesville had a narrow escape on Sunday. After getting a five run lead, three errors permitted the Nash boys to creep up in the seventh inning. Three runs and in the ninth with one to come within a lone tally of tying the score.

Twirling Baxter of the Tractors was hit for 12 singles by the Nash boys. Wooton allowed only eight. Two of those hits were triples by Wooton and Perring and one was a two buster by Perring.

Matteson Has Complete Lapse in Losing Title

(SPECIAL TO THE GAZETTE)
Kenosha, Wis.—The inevitable "off-day" that comes to all sportsmen hooked itself on to D. A. Matteson of Janesville Saturday and with a complete lapse in form the man who ex-cited the greatest surprise in Wisconsin golf history lost the final for the state championship to Gordon (Ted) Guilbert of Racine. The score was overwhelming, 9 up and 8, and shows conclusively how badly Matteson let up in his style.

The match started out in a whirlwind and promised to be as close as the play of the others that defeated "Dick" Cavanaugh, five times state champion, and Ned Allis, former title holder.

Matteson, a dead shot on pins, had everything in his hands on the 18th hole, but coming back Guilbert speeded up and won seven of the nine holes.

BAKERS SWAMPED BY RAILS, 14-2, FOR CITY TITLE
Thirteen errors were piled up by the Bakers-Tiles Sunday and they dropped the first game for the city championship series. The Bakers pitched, allowing only six hits and fanning 11 Doughboys, held the Bakers at bay until the ninth when Hager's double with two on in the ninth and two down scored their only runs.

The Bakers used three twirlers without success. Hager started on the mound and was first in the line. Hager's hit gave way to Bick. "Charley" Jater had to make way for Dawson because he was still suffering from injuries received in a recent game.

Lathrop Stars in Beloit Wins

Introducing himself to the Beloit fans as a member of their fairy team, "Bill" Lathrop was largely responsible for the two-week end victory of the Engineers, 4 to 3 on Saturday and 13 to 4 on Sunday. A large number of Janesville rooters went down to the Gateway city to pull for "Rusty."

With Joliet, ahead on Saturday, Lathrop slammed into a two-bagger with one on rattling the board's on the fence. Coming in the ninth, the hit tied up the score. Bill was acting as a pinch hitter. Beloit won in the tenth.

On Sunday, the Fairies had an easy time with the Standards with Bill pitching. Shook got a two bagger.

MILK COMPANY CLAIMS VICTORY
(Continued from Page 1.)

All the producers informed not one advised me that he would not deliver milk under such an agreement. I could not tell the length of time the reduced price would be necessary.

Market Is Given.

Satisfaction was expressed by many for it gave them a local market. On July 15 we again started paying full marketing company price, making the reduced price effective from June 1, to July 15, only a period of six weeks. The surplus was paid over although we agreed to pay the full price of the association and will continue to do so. As to the point we have purchased milk at reduced price for six weeks, we have paid the price to the consumer. It must be considered that the Janesville Pure Milk company was paying for surplus milk which went into cream and butter and worth only a few cents to the farmer at 30 cents. That milk cost us \$2.25 a hundred, a price higher than that of the marketing company.

Council Is Claimed

"After the Afton meeting the association members decided to refuse to deliver milk unless the difference was paid for the six weeks and we agreed to take only marketing company milk. The committee called on me. I told them I would have to have one to one. They in turn told me to refuse to answer that day meant a strike.

"The Janesville Pure Milk company still insists on the right to take milk and to choose whether to deliver to the members of the marketing company or independent farmers.

"They have taken radical methods, going from farmer to farmer and in event he refused to sign an agreement not to deliver to the distributors against whom a strike was waged, that farmer was to be ostracized. Farmers who refused to sign were coerced into either joining or attending boycott meetings and then they had to sign if they didn't.

"The strike orders, their farms could burn down before the neighbors would give aid. They were warned that in harvest time they were in need, aid would not be given them.

"It is the old fight of the organized milk producer against the independent farmer.

"Due to the loyalty of patrons who have stood by us, we have received full amount of good milk and we will continue to get that full supply.

"Farmers have called us up and have Rock and other counties.

Spread Charge Held

"When the marketing company took out the 50 per cent. price, it was directed that their checks be held up, for they were going to withdraw and not pay the charges. In event a farmer had \$500.00 in cash, he would be taken to the Chicago office. It was the farmers and producers who insisted on the withholding of the spread. The question of this money goes to the local farmers and to the Chicago office is still unsettled. The marketing company secretaries can get the spread charges, for they are willing to pay it.

"The marketing company, or anyone has offered a bonus to deliver milk to the company. If any farmer is so cheap as to sell himself for \$5 or any amount below the list, we don't want patrons to sell themselves, either deliver as a matter of right, or keep the milk. Most of our patrons are delivering to the marketing company, and believe in fair treatment," declared Mr. Casey.

General Obregon Model of Democracy; Lives in Modest Cottage; Mixes With People

Mexico City—President Obregon has shown on numerous occasions that there is nothing of the aloofness and unapproachability about him that characterized his predecessor, Carranza.

He frequently dines in public with his wife, and at one cafe where there is dancing he may be found at times escorting a friend in promenade, although he does not dance.

At a recent wrestling match he aroused much applause when he quietly slipped into a box and was not at all backward in picking his man to win.

He still refuses to use Chapultepec Castle, the beautiful presidential home, for a residence, preferring to live in a modest cottage nearby. The castle, however, is frequently used for small parties and the office of Obregon friends is well entertained.

The president disdains pomp and show and even the four state receptions he has held have been modest. Always a good horseman, Gen. Obregon may be seen almost any Sunday morning on the bridge path, and on days of fest he frequently joins the automobile parade through Chapultepec park.

At no time does he carry a bodyguard, not even on a recent local tour when the rumor of a revolution were rife. On that day he passed through thousands of spectators in an open carriage.

TARIFF WON'T HIT CANADIAN WHEAT PRICES

Regina, Sask.—Wheat prices in the Canadian west will not be affected by the new American tariff, experts here believe.

The tariff, which provides for free shipment to the United States of wheat, is not expected to be exploited by market manipulators, according to J. B. Musselman, central secretary for the Saskatchewan Grain Growers' association.

"So long as the United States requires western Canadian hard wheat for blending with their own winter wheat, it would be to their own people, still have to pay the import duty at it, besides its competitive world value. The United States millers will be under a handicap in competing with Canadian millers when it is considered that imported wheat is used for blending in making flour," Mr. Musselman said.

The Canadian meat industry, however, Mr. Musselman believes will be hard hit by this new tariff.

"The effect of this tariff on our meat industry is likely to be very much more detrimental to the farmers and stock raisers of Canada than practically no other market for live cattle," he said.

MISSOURI MAN TO MAKE PILGRIMAGE TO OLD HOME HERE

C. C. Alworth, born at Ft. Atkinson, and who at one time was in business at Janesville, hasn't had vacation in 20 years. He celebrated his 45th birthday at his home in Columbia, Mo., this week by working in his repair shop, but this program is to be entirely changed next month when he is going to have his first vacation in almost a quarter of a century.

He and his wife and son, a student in the University of Missouri, will drive to Janesville, August 20, visiting old friends. He also will go to Ft. Atkinson, Jefferson and other Wisconsin towns to look over the scenes of his youth.

He is among his possessions some old furniture that was brought from the east to Wisconsin by his parents. An old writing desk is known to be 125 years old and one chair is constructed entirely without nails. Many curio collectors have offered him tempting prices for them but Alworth has refused all offers.

He at one time lived in Cuba where he raised garden truck for the New York market but he would not go back for the whole island, he says. Too many spiders, bugs, just as and things in the way Alworth puts it.

MAXFIELD STRIKES BLOW AT "ONE-ARMED" DRIVERS OF AUTOS

Judge Maxfield struck a blow at "one armed" auto drivers Monday when he fined E. C. Phelps \$25 and costs for reckless driving. Deputy Sheriff Roy Worthington, who arrested him on the Janesville-Beloit concrete highway Sunday afternoon, testified Phelps was driving with only one hand on the wheel and was going from one side of the road to the other, paying more attention to the occupant of the car sitting with him than to his driving.

The third woman speeder to local court history was fined \$10 and costs. No. 3 happened to be Mrs. J. J. South, Beloit, arrested Sunday on the concrete highway by Worthington.

Rome—Most Italian women, if they could be so chosen, would rather be Eve, according to a vote recently taken by a Roman paper. She had no competition and her husband was never away. Next to Eve, Mary Magdalen was the favorite, because after enjoying the sins of the world, she was forgiven and became a saint.

More Mains May Be Laid in City

First Warders May Get Water Service—New Sewers for East Side.

Property owners on Pine street and Linden and Myra avenues in the First ward are to be given an opportunity to connect up with the city water supply system if the council Monday night acts favorably upon a proposal of the board of public works to lay water mains this summer.

Eight sanitary sewer and water main extensions are recommended to the council by the board of public works to be acted upon Monday night. The recommendations follow a survey of the city made to determine the work found most necessary.

It is proposed that which water mains be laid on Myra avenue, from Washington to Frederick street; on Linden avenue, from Oak Hill avenue to the west line of lot 42 in Lovejoy's addition; and on Pine street, from Mineral Point avenue to Highland avenue.

In the second ward, the board's report calls for an 8-inch main on Bonfor avenue, from Prairie avenue, to Caroline street.

The other four recommendations are that sanitary sewers be laid on St. Mary's avenue, from Hickory to Railroad street on South Third street, from Ringold to a point 575 feet west to connect with an 18-inch tile drain; on Blackhawk, from Clark to Racine; and on Racine, from Blackhawk to Fremont.

THE ACID TEST

DO YOU KNOW WHAT YOU ARE GETTING FOR
YOUR ADVERTISING DOLLAR IN JANESVILLE

TO LOCAL AND NATIONAL
ADVERTISERS

AN ABSOLUTE BUSINESS
PROPOSITION

There is no luck about advertising—

It is not a game of chance—

It is the use of knowledge.

Advertising knowledge is gained by experience—your own and that of others who are more successful. This is the great factor. There is no glittering solicitations of the advertising salesman that can outweigh the facts or that should be permitted to sway your judgment.

You advertise to bring business in your store or office. Advertising—properly done—will always sell anything worth the price asked for it.

It is not good logic to permit yourself to be influenced by friendship or by favors that would cause you to waste your money.

Advertising is a cold business proposition. You cannot afford to advertise in a medium that does not give you full value for your advertising dollar. Your good judgment tells you that.

Do not try to run contrary to your judgment, because if you do your business will suffer.

If you can purchase a bill of goods on a profitable margin you are going to buy it even though you may not like the man or firm from whom you make the purchase. That is good business because you can make money on the deal.

Invest your advertising dollar in Janesville the same way.

ADVERTISE AS CAREFULLY AS YOU BUY YOUR GOODS

Your investment in advertising should be made just as carefully and upon just as complete investigation and knowledge as you make your purchases of goods.

You never buy goods without a careful and expert examination.

You send your high-salaried buyers into the market to inspect and investigate and to use their knowledge of prices.

Your advertising should be bought in the same careful way.

The Gazette offers you an investment for your advertising dollar on just that basis.

It invites you to investigate its present circulation, which has grown several hundred since the first of the year; the character of the Gazette as a newspaper, the reader interest it affords you, and on which so much depends in the matter of actual returns to you.

The Gazette urges you to obtain the experience of advertisers who spend their advertising dollar day in and day out in the Gazette.

In Every JANESVILLE Home
In the Best Homes of ROCK COUNTY

Census figures reveal that there are slightly over 3600 families living in Janesville. The average family numbers five individuals and the official population of Janesville is 18,293. Figure it out.

The Auditor's report of the Gazette's circulation shows that the number of copies sold in Janesville runs parallel with the number of families. That means that you can tell approximately every man, woman and child in Janesville what you have to sell. You can offer them your goods at an appointed time—every evening when they are in a receptive mood. Any time that the sale of your goods is of utmost importance to you.

At the same time that you are doing this you can cover Rock County and you can preach your wares and your prices to the majority of people in every town, village and farm community within a radius of forty miles from Janesville.

There is no better medium to carry the message of your advertisement direct to the purchaser of your goods. No greater service can be rendered to your business than the distribution of your advertisement to the thousands of Gazette readers in Janesville and throughout trading territory.

The Janesville Daily Gazette
STANDS THE ACID TEST

The Gazette welcomes such investigation because we know that the Gazette will stand the test.

The Gazette is always glad to place at your disposal all the information it has about itself as an advertising medium.

After you have obtained that investigation still further, confirm what we tell you.

The Gazette has nothing to conceal; it does not try to confuse you with a mass of figures.

Its circulation is an open book.

Like PRACTICALLY all real newspapers of the country, it is a member of the Audit Bureau of Circulation, which sends its men into the Gazette office and checks up its circulation just the same as a government bank examiner audits the funds of a national bank.

The Gazette is glad to furnish reports of these audits to advertisers.

They tell the truth and if you analyze them carefully and use YOUR OWN brains in analyzing them and comparing with other means of covering the same territory, you will not be fooled by any juggling process that may be presented to you.
